General Information

Overview

This unit builds on the concepts of managerial accounting introduced in first-year accounting. The unit develops underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method. Activity based costing and its use to manage activities is introduced. In this unit you will integrate theoretical and technical management accounting knowledge, exercise judgment, and employ critical thinking skills in applying management accounting concepts and tools to solve problems, make management accounting decisions and evaluate the impact of these decisions on profitability.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.
