Feedback from Students feedback

Feedback

Enhance the learning materials to improve their usefulness and relevance for students.

Recommendation

Following a review of the unit materials, the Unit Coordinator (UC) identified that the current textbook has become outdated and contains several errors in its examples and activity solutions. As a result, the UC recommends adopting a more contemporary and relevant textbook to better support student learning and ensure alignment with current accounting practices and industry expectations. To facilitate this change, the UC proposes a comprehensive redevelopment of the unit in Term 1 2027 in preparation for delivery in Term 2 2027. The redevelopment will include the adoption of a new prescribed textbook, the creation of revised lecture slides and recordings, and the design of new workshop activities that align with the updated curriculum and learning outcomes.
