General Information

Overview

Ethics and governance is a core component of the knowledge and skill base of today's professional accountants. It promotes awareness of the ethical responsibilities of professional accountants, thereby enabling them to identify and resolve ethical issues or conflicts throughout their career. In this unit, you will study the role of accountants as members of a profession, and their interaction with society, and apply the code of professional ethics and a conceptual framework for ethical behaviour. You will be able to apply corporate governance principles and evaluate compliance. You will also be able to evaluate corporate social responsibility reporting for compliance with international guidelines. This unit is a capstone unit for the Master of Professional Accounting, integrating prior studies and preparing students for their future role as accountants in the community.
