Assessment tasks: 1. Online quizzes (Assessment task 1): Task description: Each of the 10 on-line tests is worth 1% of the total grade for the unit. The on-line tests will be open on a weekly basis from weeks 1 to 11, with week 1 being a trial on-line test (ungraded) to get the students familiar with the process. The quizzes will be open at 12.00 PM AEST Wednesday and close at 11.45 PM AEST Wednesday in the following week. The materials assessed in each on-line test will be on key concepts to be covered in the upcoming week's workshop. For example, on-line Test 1 (open on the Wednesday of week 1 and close on Wednesday of week 2) will assess the content to be taught in week 2. The purpose of the on-line test is to enable the students to prepare for the workshop prior to listening to the recorded lecture and undertaking the weekly zoom workshop activities. This will allow students to grasp the material covered during the workshop, engage effectively their peers, and create a good learning environment in the workshop. You will have multiple attempts for each on-line test, and you have 20 minutes to complete the task. Each test will consist of 10 multiple choice questions. Learning outcome assessed: * Analyse and interpret the information provided from an accounting information system * Critically analyse standard management problems, and using appropriate accounting analytical techniques, correctly determine the appropriate parameters for a management decision * Demonstrate an advanced knowledge of accounting tools and techniques for assisting managerial decision making by being able to critically analyse and report on the range of appropriate accounting methods applicable to a given management decision making problem * Demonstrate accuracy in presenting or analysing accounting information in a range of business management problems presented in this unit. 2. Practical and Written Assessment (Assessment task 2): Task Description: This assessment is a group assignment of TWO to THREE students. Students will form a group and register their groups on Moodle for submission and grading (further instructions will be provided at the beginning of the term). The assessment task consists of two parts - PART A and PART B. Part A (10%) is a written assignment and assesses foundation accounting issues and student's knowledge about financial statements. Part B (20%) requires students to analyse and interpret the annual reports and financial statements, then do a comparative analysis using ratio and trend analysis of prescribed companies and write an executive report in order to make an investment or a management decision. Assessment due date: Week 9 Monday (9 Sept 2024) 11.45pm AEST Online via Moodle 3. Final assessment: The take-home assessment is open-book and will be scheduled during the university exam period. You will be advised during the term of the scheduled date and time of the take-home assessment. The take-home assessment will involve: 1. Downloading a document from Moodle that contains the questions, 2. Completing answers to these questions in a Word/PDF document, and 3. Submitting your document in Moodle. Further information on the take-home assessment will be available in Moodle in Week 10. Assessment due date: Exam Week Monday (14 Oct 2024) 11:45 pm AEST. This assessment will occur during the exam week. Students will be provided 5 hours to undertake the take-home assessment. This includes reading time and time to download and upload assessments. Graduate attributes: Knowledge Communication Cognitive, technical and creative skills Self-management Ethical and Professional Responsibility

General Information

Overview

This unit introduces you to the techniques and information provided by accounting information systems to resolve managerial problems. In this unit you will examine the managing and reporting of a company's financial position, financial performance and cash flows. You will analyse and interpret a company's financial statements, and examine the different forms of cost-volume-profit analysis. You will also examine full costing and budgeting techniques, capital investment strategies and current trends and issues in accounting.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
