AVAT11012 Introduction to Flight Operations

Term 1 - 2025

Profile information current as at 23/12/2024 12:39 pm

All details in this unit profile for AVAT11012 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In Aviation Practice, you will learn how to use checklists for single-pilot operation flying, which will support your development towards multiple crew operations. In the flight simulation labs, you will learn the proper use and effect of primary and ancillary controls on the ground and in the air. You will fly simulated air exercises including: straight and level, climbing, descending, turning, and stalling. You will demonstrate flying the circuit pattern with air traffic control procedures and phraseology as part of your final assessment. The simulation will utilise the Lockheed Martin Prepared 3D software.
