General Information

Overview

Sustainable Aviation will offer you an introduction to concepts and tools necessary for understanding the challenges of sustainable development in the aviation industry. You will develop skills in comprehending and assessing the environmental, social and economic sustainability of societal decisions and their impact on the aviation industry. You will gain insights into efficiently assigning resources to release unused capacity, reduce costs, and increase systems' resilience to unexpected events for sustainable transport infrastructure development. As this unit's content and activities offer insights into sustainability across various aspects of the aviation industry, it aligns with several United Nations Sustainable Development Goals, including Goal 4: Quality Education, Goal 8: Decent Work and Economic Growth, Goal 9: Industry, Innovation, and Infrastructure, Goal 11: Sustainable Cities and Communities, and Goal 17: Partnerships for the Goals.
