General Information

Overview

In Animal and Plant Physiology you will study the basic functioning of plants and animals. You will explore a number of major themes in biology including the integral relationship between structure and function, the maintenance of homeostasis and the principles of evolution and adaptation. You will examine major functions of living organisms such as locomotion, nutrition, respiration, circulation and reproduction. In the practical component you will gain hands-on experience of relevant laboratory and field procedures.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

Unit Coordinators changed partway through term and this impacted student experience.

Recommendation

Avoid staffing changes where possible; where not possible in future find ways to mitigate the impact to student experience.

Feedback from SUTE

Feedback

The residential school was a positive experience and students learned a lot from the hands on experience.

Recommendation

Continue to provide a hands on residential school with enthusiastic teaching staff.

Feedback from SUTE

Feedback

Some lecture recordings are from several years ago and should be updated.

Recommendation

Update lecture recordings where relevant.

Feedback from SUTE

Feedback

Feedback on assessment was not timely.

Recommendation

In future, timelines for feedback as outlined in the Unit Profile will be maintained.
