BLAR13047 *Construction Economics 1*

Term 1 - 2027

Profile information current as at 04/09/2026 05:54 pm

All details in this unit profile for BLAR13047 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

As you study this unit, your overall aim is to: understand macro economics, the markets and their dimensions, World and local economies and policy instruments; fully understand the effect of supply, demand prices and stocks; and become familiar with procedures, principles and methods of project costing, bills of quantities and life cycle analysis.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2027

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.
This information will be available on Monday 11 January 2027

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Academic Progression Policy and Procedure
- Student Refund and Credit Balance Policy and Procedure
- Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit Teaching Evaluation Unit Comments Report - T1, 2025

Feedback

The gap between the feedback for the previous assessment and the next assessment submission due date could be increased to ensure an effective and successful submission.

Recommendation

There were delays in providing feedback on some assessments. Hence, returning feedback within two weeks of the submission due date, normally set for each assessment, could not be maintained for some assessments due to the lecturer's personal issues. However, the teaching team is obliged to maintain this in the next and future deliveries. The teaching team found that the gap between each assessment due date in the current delivery is close to 4 weeks, which is sufficient for students to prepare their next assessment, provided that feedback on the previous assessment is given within 2 weeks. This will be recommended to continue in future deliveries.

Feedback from The Lecturer and the Unit Coordinator communication

Feedback

Teaching team suggests applying guest lectures in future deliveries

Recommendation

It is recommended to have a guest lecturer or special speaker in some weeks to keep the students engaged with practical examples or industry situations. These sessions are intended to expand the students' knowledge on life cycle cost analysis and bills of quantities. One such session is planned to conduct towards the end of the teaching term making it an addition support for students to the last assessment task.

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.
This information will be available on Monday 11 January 2027

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.
This information will be available on Monday 11 January 2027
