General Information

Overview

This is a practical based unit designed to develop your awareness of on-site behaviour, activities, and procedures associated with inspections for both the building development and regulatory control processes for all classes of buildings defined in the Building Code of Australia. It will develop an understanding of the role and responsibilities of the inspecting officer and the legal rights and obligations of all parties.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from UC/Lecturer

Feedback

The Unit Coordinator/Lecturer observed a lack of engagement in tutorials, which limited opportunities for interaction and deeper learning.

Recommendation

Future deliveries will incorporate more structured and interactive tutorial activities, including guided discussions, problem-based tasks, and participation incentives, to promote student engagement actively.

Feedback from Student discussion in the MS Team

Feedback

Students perceived the unit content as being overly legalistic, with insufficient emphasis on practical application.

Recommendation

Future iterations of the unit will strengthen the integration of practical, industry-based examples and case studies, ensuring a better balance between legal concepts and their real-world application.

Feedback from Student's email

Feedback

Students highlighted that the review of draft assignments was beneficial in supporting their learning and developing professional writing skills.

Recommendation

The practice of providing draft feedback opportunities will be maintained and further enhanced, with structured guidelines and timely feedback to support students in refining their academic and professional writing.
