The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

The study of this unit will assist you to develop your understanding of food and nutrition and the health of Australians. This unit has a focus on food and nutrition systems in Australia, the development of nutrition-related diseases/conditions, and contemporary issues related to food security and environmental sustainability. In addition, the role of food and nutrition in health and the range of factors that influence food choices, nutrition behaviours and health, will be considered from a medical science perspective. Future medical scientists, educators, policy makers and consumers of food may benefit from this unit through broad exploration of the interrelationships between nutrition and health.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator self-reflection

Feedback

Additional weekly resources that illustrate real-life applications of the learning content, along with informal quizzes, could increase engagement and deepen student understanding.

Recommendation

Consider incorporating links to discussions of real-life applications of the learning content using articles from The Conversation and other reputable sources. Additionally, include informal quizzes where appropriate to enhance engagement and learning.
