Term 2 - 2025

Profile information current as at 24/11/2024 01:33 pm

All details in this unit profile for BMSC11012 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit you will study the structure and function of the immune system and be introduced to foundational concepts that underpin how the immune system works. You will explore the mechanisms that control the human body's ability to detect, contain and remove or destroy harmful pathogens whilst retaining tolerance to its own cells. You will also put this into practice at the Residential School where you will conduct laboratory tests that demonstrate the immune response.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUITE feedback

Feedback

Students found the weekly worksheets and associated weekly tutorial helpful in assisting with the assessment quizzes.

Recommendation

Tutorials incorporating test-like questions will be retained.

Feedback from SUITE feedback

Feedback

Students enjoyed the residential school and found the handouts assisted with their preparation for the invigilated in-class test.

Recommendation

Residential school format and handouts will be retained.

Feedback from SUITE feedback

Feedback

Earlier assessment feedback may be beneficial.

Recommendation

Assessment timing will be examined to see if earlier assessment feedback is possible.
