General Information

Overview

This is the first of two placement units within your course. In this unit, you will be placed within diverse healthcare settings in the regional communities of Central Queensland and the Wide Bay. The placements are observational in nature, and will provide you with experiential learning opportunities that will enable you to connect with regional communities. You will gain insight into the diversity and complexity of healthcare delivery in a regional context. You will gain an appreciation of the need to adaptively respond to uncertainty in the healthcare environment. You will learn about communication and cultural awareness in healthcare settings and further develop your personal and professional attributes. You will apply reflective practice to support your ongoing coursework studies. Mandatory on-campus learning activities at the Rockhampton and Bundaberg campuses form a key aspect of this unit.
