BMSC12012 *Molecular Cell Biology*

Term 1 - 2026

Profile information current as at 23/01/2025 12:35 pm

All details in this unit profile for BMSC12012 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit focuses on developing an understanding of how genomes are organised, how they function within the cell, how molecular medical treatments can be developed, ways in which we can manipulate genomes and utilise their components for a range of medical applications. You will explore the application of molecular techniques, such as polymerase chain reaction and next generation sequencing, and their revolutionary impact on diagnostic testing.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback.

Feedback

Some graphics and visual aids in lecture and tutorial slides were of low quality.

Recommendation

Revise lesson materials and update supporting visual aids to a higher quality resolution.

Feedback from Student feedback.

Feedback

Students appreciated the interactive review activities.

Recommendation

Continue to provide more interactive review activities covering "key concepts" for weekly content.

Feedback from Personal reflection.

Feedback

Online and in class interaction was low.

Recommendation

Encourage peer to peer learning through regular Moodle posts and consider use of a mixed student-led and instructor-led approach in tutorials.
