Offerings For Term 2 - 2025

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Unit Comments Report

Feedback

Allowing to select a research topic in the student's chosen field will help with the engagement of students.

Recommendation

It is not possible to allow students to choose any topics of research they wish, given the structure of this unit, time restrictions, and requirements of different topics. This unit aims to provide students with the introductory knowledge and skills required for research and understanding the process of research. The unit is not designed to or has the potential to accommodate all research interests students have. This should be communicated more clearly to students. Each term additional projects are added to the list. Additional discipline-specific research project offerings will require the involvement of researchers/mentors from the disciplines.

Feedback from SUTE Unit Comments and Teacher Reports

Feedback

Additional assessment-specific tutorial videos just before each assessment and tutorials on times/days suitable to different students can help clarify the requirements.

Recommendation

A separate tutorial recording for each assessment was provided in the assessment tile of the unit. Each tutorial focused on activities relevant to assessments, with templates, suggestions, and guidelines to complete each assessment. In addition, students had trouble-shooting tutorials in which they could ask any question related to the assessments. These tutorials were offered on a set time/day but also on-demand with the potential to be offered at a time/day suitable to students. Unit Coordinator will communicate these more clearly in the next offering of the unit.

Feedback from SUTE Unit Comments and Teacher Reports

Feedback

The structure of the unit and lectures, and the support offered by the unit coordinator were appreciated.

Recommendation

Continue with the scaffolded structure of the unit and support for students.
