General Information

Overview

In this unit you will build upon the foundational knowledge gained in microbiology and apply it in a clinical context. You will explore the role of commensal flora in maintaining health and the role of bacterial, fungal, viral, protozoal and helminthic pathogens in disease and learn about their detection, identification, treatment and management. You will also consider new and emerging technologies and you will also explore the concept of 'One Health' while considering emerging diseases, pandemics and zoonoses as well as the emergence of antimicrobial resistance.
