

#### Profile information current as at 29/07/2024 03:30 pm

All details in this unit profile for CHIR13010 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

# **General Information**

### Overview

This unit will build upon your conceptual understanding of the causes, mechanisms and consequences of disease and dysfunction of the cardiovascular, lymphatic, haematopoietic, reproductive, respiratory, endocrine, renal and digestive systems. You will critically evaluate the multifactorial symptoms of dysfunction in order to infer the likely causative pathophysiological condition. Importance will be placed on understanding that different pathologies frequently cause a suite of similar symptoms but can nevertheless be differentiated on the basis of the combination, intensity and development of those symptoms. This knowledge will be used in conjunction with the examination protocols and procedures taught in Clinical Assessment and Diagnosis 3, in order to formulate a differential diagnosis.

### Details

Career Level: Undergraduate Unit Level: Level 3 Credit Points: 6 Student Contribution Band: 8 Fraction of Full-Time Student Load: 0.125

# Pre-requisites or Co-requisites

Pre-requisites: BMSC11002 Human Body Systems 2 and MBIO12013 Microbiology for Health Care and BIOH12008 Human Pathophysiology or MPAT12001 Medical Pathophysiology

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and</u> <u>Procedure (Higher Education Coursework)</u>.

### Offerings For Term 1 - 2024

• Brisbane

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

# **Class and Assessment Overview**

### **Recommended Student Time Commitment**

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

# **Class Timetable**

Regional Campuses Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

<u>Metropolitan Campuses</u> Adelaide, Brisbane, Melbourne, Perth, Sydney

### Assessment Overview

Online Quiz(zes)
 Weighting: 15%
 Written Assessment
 Weighting: 25%
 In-class Test(s)
 Weighting: 60%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

# **CQUniversity Policies**

### All University policies are available on the <u>CQUniversity Policy site</u>.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

# Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

### Feedback from Verbal

#### Feedback

The students enjoyed the challenge of the written assignment and the research required to form a diagnosis for a real patient case.

#### Recommendation

It is recommended that the unit continue to use this assessment task.

### Feedback from SUTE

### Feedback

The students felt the content was heavy and the medical language difficult to understand.

### Recommendation

It is recommended that the unit coordinator explore creating an introductory to medical jargon lecture and condense and streamline the content further, where possible.

### Feedback from SUTE

#### Feedback

Some students felt that they would benefit from the tutorial being delivered in person to help connect the concepts more easily.

#### Recommendation

It is recommended the unit coordinator explore moving the tutorial to an on-campus delivery mode.

# Unit Learning Outcomes

#### On successful completion of this unit, you will be able to:

- 1. Compare the aetiology, epidemiology, pathogenesis and clinical manifestations of common diseases
- 2. Explain the pathophysiological basis of symptoms and signs of common diseases, using your knowledge of anatomy, physiology, biochemistry, microbiology and pathology
- 3. Analyse the combination, intensity and chronological development of a client's symptoms, to infer the most likely pathological cause

Advanced

Level

4. Explain the multifactorial nature of disease.

### Alignment of Learning Outcomes, Assessment and Graduate Attributes

# Alignment of Assessment Tasks to Learning Outcomes

| Assessment Tasks             | Learning Outcomes |   |   |   |
|------------------------------|-------------------|---|---|---|
|                              | 1                 | 2 | 3 | 4 |
| 1 - Online Quiz(zes) - 15%   | •                 |   | • |   |
| 2 - Written Assessment - 25% | ٠                 | • |   | • |

| Assessment Tasks           | Learning Outcomes |   |   |   |   |  |
|----------------------------|-------------------|---|---|---|---|--|

### Assessment Tasks

# 1 Weekly Quiz

Assessment Type Online Quiz(zes)

### **Task Description**

The students will undergo a weekly quiz in the tutorial class. The content from the previous week will be tested. This is not a group activity, with the results and feedback allocated at the end of the quiz in class. The quizzes will be weighted at 15% in total.

Number of Quizzes 1 Frequency of Quizzes Other Assessment Due Date

**Return Date to Students** 

Feedback and grade to be provided in person at the end of the quiz.

#### Weighting

15%

### Minimum mark or grade

50%

### **Assessment Criteria**

The questions asked in each quiz will be objective in style (e.g. multiple choice and short answer), answers will be marked in class as either correct or incorrect, with the correct answer provided after the quiz has closed.

### **Referencing Style**

<u>American Psychological Association 7th Edition (APA 7th edition)</u>

### Submission

Offline

### Learning Outcomes Assessed

- Compare the aetiology, epidemiology, pathogenesis and clinical manifestations of common diseases
- Analyse the combination, intensity and chronological development of a client's symptoms, to infer the most likely pathological cause

### Graduate Attributes

- Communication
- Problem Solving
- Information Literacy

### 2 Written Assignment

### Assessment Type

Written Assessment

### **Task Description**

This assignment focuses on questions which are designed to demonstrate the understanding of pathophysiological processes and will be weighted at 25%. Submission for the assignment will open on 1st April at 08:00 AEST and close on Monday 13th May at 08:00 AEST. A marking rubric will be posted on moodle along with the full case description.

This assignment involves one case for a total of 100 marks

- diagnosis (4)
- differential diagnosis (6)
- pathophysiology (10)
- aetiology (20)
- epidemiology- (global and local) (20)
- other common signs and symptoms (20)
- references (20)

This is not a group activity and you must not use AI to complete the task.

### Assessment Due Date

Week 10 Monday (13 May 2024) 8:00 am AEST

### **Return Date to Students**

Week 12 Monday (27 May 2024)

Weighting

25%

### Minimum mark or grade

50%

### Assessment Criteria

The marking criteria will assess your ability to:

- demonstrate understanding of pathophysiological processes
- develop an analytical approach to referencing and the diagnostic process
- compare the aetiology, epidemiology, pathogenesis and clinical manifestations of a common disorder
- Analyse the combination, intensity and chronological development of a patient's symptoms, to infer the most likely pathological cause
- communicate clearly in written form with proper spelling and grammar

• correctly use references in the CQU preferred style and format

This is not a group activity and you must not use AI to complete the task.

### **Referencing Style**

• American Psychological Association 7th Edition (APA 7th edition)

### Submission

Online

#### Learning Outcomes Assessed

- Compare the aetiology, epidemiology, pathogenesis and clinical manifestations of common diseases
- Explain the pathophysiological basis of symptoms and signs of common diseases, using your knowledge of anatomy, physiology, biochemistry, microbiology and pathology
- Explain the multifactorial nature of disease.

### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy

### 3 In Class Test

### Assessment Type

In-class Test(s)

### **Task Description**

This in class test will be undertaken in a CQUni computer lab on whichever campus that you are enrolled. The test will involve a mix of question types including multiple choice, short answer and a case discussion. The test will assess all theoretical content taught across weeks 1-12. A study guide will be provided during the term.

#### **Assessment Due Date**

Review/Exam Week Monday (3 June 2024) 11:45 pm AEST

### **Return Date to Students**

Weighting

60%

# Minimum mark or grade 50%

#### **Assessment Criteria**

The assessment criteria will involve selecting or providing the most accurate and correct answers to the questions posed in this in class test.

### **Referencing Style**

• American Psychological Association 7th Edition (APA 7th edition)

### Submission

Online

### Learning Outcomes Assessed

- Explain the pathophysiological basis of symptoms and signs of common diseases, using your knowledge of anatomy, physiology, biochemistry, microbiology and pathology
- Analyse the combination, intensity and chronological development of a client's symptoms, to infer the most likely pathological cause
- Explain the multifactorial nature of disease.

### **Graduate Attributes**

- Communication
- Problem Solving
- Information Literacy

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

#### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

#### Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

#### What can you do to act with integrity?

Seek Help If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
