General Information

Overview

Clinical Placement 6 provides you with your sixth block of practical experience within a chiropractic clinic. You will work independently while performing as a functional team member using the theoretical knowledge and practical skills developed in the previous five clinical units. You will be expected to demonstrate your increased knowledge and skill by delivering patient assessments and treatments. In addition, you will actively lead clinical decision making and management planning discussions. During this unit you will have the opportunity to have an external placement. The clinical placement experience is a valuable bridge between university and professional practice.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Students (Senior interns) appreciated the improvements to the the Junior Clinic transition period but would appreciate further consolidation of the requirements.

Recommendation

It is recommended that the clinical education team and the relevant unit coordinators continue to work together to streamline the junior clinic experience for both junior and senior interns.

Feedback from Student feedback

Feedback

Some students felt that more structured learning materials would help them develop their clinical skills and knowledge.

Recommendation

It is recommended that the unit coordinator and clinical education team explore improving the learning materials for this unit.
