The project is flexible and is designed by students in consultation with academic and workplace supervisors. It may involve academic research into Journalism practice or a professional work placement with an approved organisation (minimum 120 hours). Academic and workplace supervisors will work with students to devise assessment tasks that will meet negotiated and specific project learning outcomes.

Assessment Tasks

1 Proposal

Assessment Type

Written Assessment

Task Description

You will choose one of three options: a work placement; creating a media product; or a research paper, all in the journalism or media field. The work placement consists of 120 hours of supervised work and is assessed by a portfolio of evidence. The media product is the development of an artefact consisting of 120 hours of work, and is assessed by submission of the artefact, and a portfolio of evidence of production. The research paper is a 6,000 word dissertation on a negotiated journalism or media-related topic. Full details of each option are outlined in Assessment 2.

Assessment 1 (the Proposal) outlines your selected option, and consists of a proposal as to how the option (work placement or media product or research paper) will be achieved within the Term's time frame.

For this assessment, you will:

- 1) Submit a short document that provides an overview of your project (by the end of Week 3) (500 words maximum); PLUS
- 2) Participate in an online Zoom session in Week 4 to discuss your project with staff and peers, using a single Powerpoint slide which summarises your proposal.

The zoom session will be conducted at a time negotiated with the Unit Coordinator.

a) The proposal document must be succinct - no more than 500 words. Details relating to format and expected use of headings is on Moodle. You will also be expected to nominate your choice of how Assessment 3 will be completed.

- b) Participation in the Zoom session is compulsory. The purpose of this assessment is to get feedback from academic staff as to the scope of your project, and to facilitate conversation about issues and opportunities. It is intended as a formative, open session. If you have a legitimate reason for non-attendance, you will need to negotiate an alternative appointment with the Unit Coordinator.
- c) You may have started your project in consultation with the Unit Coordinator. You will still be required to participate in this assessment to receive early guidance and feedback about your project.

Use of Generative Artificial Intelligence agents (Gen AI)

Within this assessment, the use of Microsoft Copilot, Chat GPT or other Gen AI agents is as follows:

- Gen AI may only be used as specified in the assignment instructions in Moodle.

WORD COUNT for written assignments:

The word count is considered from the first word of the Introduction to the last word of the conclusion. It excludes the cover page, abstract, contents page, reference page and appendices. It includes in-text references and direct quotations.

2 Project

Assessment Type

Practical and Written Assessment

Task Description

OPTION 1: WORK PLACEMENT

This involves a work placement in an approved organisation for no less than 120 hours. The organisation must be selected in consultation with the Unit Coordinator and academic supervisor. You will submit a portfolio of your work as the assessment item.

Portfolio: Every project is different, and the portfolio is evidence of the work you did. Emails, feedback, notes of interviews and meetings, any product you made, could all be submitted as part of this portfolio. Pay attention to the presentation of your portfolio as a professional piece of communication. It must be attractive to look at, professionally

presented, and most importantly, be well written.

OPTION 2: MEDIA PRODUCT

This involves producing a media product which demonstrates the application of advanced high-level production skills (e.g. short film, video, podcast, radio documentary, book, graphic design product). You will submit the media product and a portfolio of your work as the assessment item.

Portfolio: Every project is different, and the portfolio is evidence of the work you did. The format of the portfolio will depend entirely on the media product being developed. This will be negotiated with the Unit Coordinator or academic supervisor.

Notes for work placement and media product: Your portfolio needs to be professionally presented and formatted. If possible, have one document that contains your portfolio of work. Your work also needs to be well written, so proofread carefully before you submit.

OPTION 3: RESEARCH PAPER

This involves academically oriented research into a media related topic, resulting in a 6,000 word paper. Examples include a literature review, a content analysis, a detailed case study or a workplace audit. Please refer to the page **Information about Research Paper** for more detailed information about how to structure a 6,000 word research paper, suggested topics and the expected format. The research paper is an excellent option to choose if you are interested in post-graduate study, or if conducting research and writing research papers is interesting to you. It is also a good option for those students who do not wish to undertake a work placement. Research topics can be very broad and are negotiated between you and your academic supervisor. The research paper will be completed under the supervision of the Unit Coordinator or other nominated and suitably qualified academic.

Final note: Each project is very different but the ultimate requirement is the same: you need to provide evidence of the work you have done. The specific details of your individual project will be finalised in consultation with the Unit Coordinator or your allocated supervisor.

Use of Generative Artificial Intelligence agents (Gen AI)

Within this assessment, the use of Microsoft Copilot, Chat GPT or other Gen AI agents is as follows:

3 Critical Reflection

Assessment Type

Written Assessment

Task Description

In this assessment, you will critically reflect on your academic and personal journey during the term.

You will complete a 2,500 word written document that provides an academic and personal reflection of lessons learned during the work placement, media product or research paper.

For example:

Perhaps one of the main lessons you learned related to the communication dynamics between supervisor and staff. Perhaps you felt uncomfortable asking questions and thought the work supervisor lacked clarity in directions. You could make a note of this, and refer to supporting academic texts to identify what you are going to do to avoid this situation when you graduate. There may be three or four related lessons, that could be combined into the one document.

Or perhaps there was an aspect of the assessment (be it the placement, project or research paper) you may have found challenging or frustrating. The critical reflection would include a description of the event, and a reflection of what you have learned about this aspect that you can apply in the future. There may be a series of lessons you have learned during this journey, that can be recorded separately and combined into a 2,500 word document.

Or perhaps it was surprising that the journalism industry is situated as it is, and this has made you think about journalism in a different way. The critical reflection would include a description of the industry, with references, and a prediction about what this means for journalism into the future. This reflection might end with self-reflection of the professional development yet required for yourself or your career path.

What this assessment is not

This is NOT a diary. There is no need to state 'I did this' or 'I did that'. What is more important is what you learned, and how that lesson will shape your practice into the future. This can be good as well as bad.

Use of Generative Artificial Intelligence agents (Gen AI)

Within this assessment, the use of Microsoft Copilot, Chat GPT or other Gen AI agents is as follows:

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
