ECHO12005 *Cardiac Clinical Unit 2*

Term 3 - 2027

Profile information current as at 09/09/2026 03:02 am

All details in this unit profile for ECHO12005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This clinical unit will provide opportunities to apply and integrate both theoretical and practical knowledge, skills and professional behaviours in the clinical environment. In addition to the consolidation of skills in electrophysiological assessment, you will be exposed to a range of cardiovascular assessment techniques, including echocardiography. Using clinical cases you will analyse and reflect upon the information provided to produce provisional differential diagnoses and patient management plans within an ethical framework of best practice and patient safety. Behavioural aspects of professional practice are emphasised and you are expected to reflect on your own performance and exhibit the highest level of safe patient care. Critical appraisal of performance will enable you to advance your professional, technical and analytical skills in a work setting under qualified supervision.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

A student suggested that having a chat forum to ask placement-related questions and discuss tutorial topics would be helpful.

Recommendation

In future deliveries, the UC will provide students with additional reminders about existing chat forums, to encourage consistent communication and support throughout placement.

Feedback from Student feedback

Feedback

Students reported that the tutorials were most helpful when they focused on practical and clinically relevant content. They also appreciated the additional guidance around assessments and support resolving any placement challenges as they arose.

Recommendation

The UC will continue to provide structured tutorials, to support learning, maintain engagement, and offer students a consistent space to raise and resolve placement-related issues. Ensuring these sessions remain aligned with assessment outcomes and focused on practical needs will further strengthen student progress and overall satisfaction.
