General Information

Overview

This unit focuses on the development of clinical reasoning and decision making skills. You will consolidate, extend and refine application of cardiovascular knowledge and assessment protocols gained during the Bachelor of Echocardiography and Cardiac Physiology course to a variety of clinical scenarios, case studies and cardiac assessment data. You will evaluate data and generate differential diagnoses with consideration of best practice guidelines, including critical appraisal of echocardiographic scan quality and professional sonographer conduct. You will practice the application of professional dialogue, anticipating and communicating cardiovascular assessment outcomes using discipline specific terminology. Studies will nurture development of professional attributes necessary for the transition from student to independent practitioner.
