General Information

Overview

The development of skilled reading is fundamental to children's learning across the curriculum at school and to their participation in a wide range of social situations in everyday life. In this unit, you will acquire knowledge and understanding of content in the Australian Curriculum English as the basis for effective planning, teaching and assessment in reading. Unit content includes an emphasis on the skills of phonemic awareness, phonics, fluency, vocabulary, oral language and comprehension as the foundation for early reading instruction. You will apply this knowledge to interpret assessment data, select resources, and plan activities and learning experiences for learners in early childhood education and care settings and the early years of primary school using evidence-based, balanced approaches to reading pedagogy. In addition, your engagement with the learning materials in this unit will enhance your knowledge of the technical aspects of print-based texts and the grammatical content that comprises the Language strand of the English Curriculum, as the basis for demonstrating and reflecting on your personal and professional literacy competence.
