ENEC14018 *Disaster Resilient Infrastructure*

Term 1 - 2027

Profile information current as at 15/09/2026 10:37 pm

All details in this unit profile for ENEC14018 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will analyse the physical characteristics of natural and man-made disasters to identify the mechanisms of destruction and the potential damages from an engineering viewpoint. You will consider the stakeholders and necessary framework relevant to the disaster management including necessary training and preparation for the investigators. You will learn to make recommendations to current disaster management plans to improve the access to critical infrastructure in the aftermath of a disaster. You will also investigate possible modifications of the relevant statutory frameworks, standards and infrastructure management plans to improve the community preparedness and resilience to disaster.

Offerings For Term 1 - 2027

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from UC Reflection

Feedback

The guest lectures were valuable, providing real-world examples from practicing engineers.

Recommendation

This practice should be continued in future offerings.
