Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

The unit delivers practical and useful knowledge and skills for aspiring project managers, covering relevant processes and topics that enhance both learning and professional development.

Recommendation

This good practice should be continued for student success.

Feedback from SUTE

Feedback

Some students found parts of the content less relevant to their professional context in relation to the unit's relevance to the degree, which reduced engagement with assignments.

Recommendation

More information should be provided at the start about the unit's nature, its links to previous units, and how students can build on existing and new knowledge throughout.

Feedback from SUTE

Feedback

In relation to Clear Unit Requirements, some students noted that the large volume of resources and unclear priorities made it difficult to focus on key content and assessment expectations.

Recommendation

Streamline resources and clearly link lectures to assessment requirements to reduce overload and improve focus.

Feedback from SUTE

Feedback

In relation to "Clear Unit Requirements", some students indicated that the marking guides and assessment expectations were unclear, making it harder to understand how to meet the required standards.

Recommendation

Marking guides and assessment expectations should be clarified to ensure students understand how their work will be evaluated.

Feedback from SUTE

Feedback

Regarding 'Useful Learning Materials', some students appreciated the clarity in explaining business cases but noted a lack of real-world examples to better connect theory with practice.

Recommendation

Although assignments use real-world problems, the new delivery should include a clear, early example to better guide students.
