General Information

Overview

As a student in the final year of your Bachelor of Engineering course, you will identify and analyse leadership and engineering management techniques applied within industry-based teams, and generate a personal vision for your leadership style. You will also document safety and environmental management systems applied in engineering workplaces, with a focus on cultural aspects. You will examine ethical principles, codes of ethics and apply approaches to ethical decision making. You will develop a three-year career plan outlining professional, technical, and personal aspects of career development. In preparation for this unit, it is strongly recommended that you have undertaken industry practice experience in a workplace, either via Industry Practice unit(s) or vacation employment.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Email

Feedback

The AI podcasts were excellent; they helped students to grasp concepts quickly.

Recommendation

The AI podcasts were introduced for the first time to improve the unit's student experience while providing a new conversational-style resource. The AI resources should be maintained in the future.

Feedback from Unit coordinator reflection

Feedback

There is an opportunity to improve feedback to benefit student learning.

Recommendation

The quality of written feedback should be improved in the future.

Feedback from Email

Feedback

The lecturers were very helpful and provided prompt support when needed.

Recommendation

The support mechanisms are crucial for student success and should be maintained in future.
