ENMM20025 Asset Maintenance Strategies

Term 3 - 2024

Profile information current as at 29/07/2024 03:56 pm

All details in this unit profile for ENMM20025 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will examine the business drivers and operations strategy that impact on the maintenance decision-making framework. You will develop maintenance objectives and maintenance planning controls using a systems engineering framework. You will also develop asset life plans based upon the four known maintenance strategies.

Details

Career Level: *Postgraduate*

Unit Level: *Level 8*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prerequisite: ENMM20023 Introduction to Asset and Maintenance Management.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 3 - 2024

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.

This information will be available on Monday 9 September 2024

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluations

Feedback

Students appreciated the knowledgeable and experienced industry lecturer and the relevance of the unit content.

Recommendation

Continue delivery of the unit by an experienced industry practitioner in order to ensure content is contemporary and relevant.

Feedback from Student evaluations

Feedback

Although the content has been reviewed in an effort to make it more relevant to a range of industries, some students commented that they felt the unit was still too focused on production processes and manufacturing.

Recommendation

Resources, case studies and assessment questions should be reviewed again to improve relevance to a broad range of industries.

Feedback from Student evaluations

Feedback

Some students indicated they would like more opportunities to ask questions and discuss content.

Recommendation

The structure of Zoom sessions should be reviewed to encourage more interaction.
