Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Have your say survey

Feedback

The lecturer engaged student throughout the lectures to discuss thoughts, ideas and learning outcomes. The feedback was helpful from the presentation.

Recommendation

It's encouraging to hear that the student felt the lectures were interactive and supportive of reflective thinking. We will continue to use this approach, particularly through guided discussions and mid-lecture reflection points, to keep the experience engaging and student-centered.

Feedback from Teaching team observation

Feedback

Add case study examples to the learning material.

Recommendation

The recommendation to include case study examples is a valuable one. The current version of the unit does not incorporate structured case studies. For future offerings, we plan to identify and integrate case study materials that align with the course topics, allowing students to better visualise and analyse asset maturity models in practice.
