ENVR11011 *Modern Environmental Issues*

Term 2 - 2027

Profile information current as at 04/09/2026 06:41 pm

All details in this unit profile for ENVR11011 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In Modern Environmental Issues you will learn how scientific methods and knowledge inform issues of environmental concern. You will learn about different environments and their interaction with human populations, resources and pollution, disturbance, atmospheric composition and air pollution, fossil fuels and renewable sources of energy, conservation and environmental management. You will begin to apply basic scientific knowledge and quantitative data to researching and discussing environmental issues and 'wicked' problems.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2027

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.
This information will be available on Monday 17 May 2027

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Academic Progression Policy and Procedure
- Student Refund and Credit Balance Policy and Procedure
- Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator

Feedback

Invented citations in fortnightly assessable questions and the end of term on line quiz are a growing issue

Recommendation

All scientific literature citations need to be accompanied by a clickable DOI link to ensure invented citations are minimized. Students will need to indicate the page and paragraph the cited item originates from.

Feedback from Student

Feedback

Content and assessments felt excessive for a first year unit and required significantly more time commitments than second and third year units.

Recommendation

The content of the unit does not exceed the standards for first year units (12.5 hours/wk). Lectures are 3 hours, fortnightly assessment is 3-4 hours, and readings are ~3 hours.

Feedback from Student

Feedback

Each assessment criteria was clear and precise, the lecturer was easy to get a hold of and quick to respond to all questions and provide further clarification when needed, and the assessment results were returned in a timely manner.

Recommendation

The assessment criteria will continue to be updated and modified to help students improve their research and communication skills, to help them incorporate GenAI into their workflow, and to deepen their knowledge of environmental issues and their impact on society and nature.

Feedback from Student

Feedback

Proof check moodle before term commencement, particularly assessment items, due dates and ability to post to ECHO360.

Recommendation

Remove ECHO360 links from individual weekly tiles so that all video lecture material is available through the Virtual Classes tile. Tick the "allow text" box on the Assessment 2 to allow students to submit assessment to ECHO360 through Moodle. Check and recheck dates against the Unit Profile. Reduce due dates to three places on each Moodle page (UP, Assessment Tile summary, and each assessment item).

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.
This information will be available on Monday 17 May 2027

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.
This information will be available on Monday 17 May 2027

Textbooks and Resources

Information for Textbooks and Resources has not been released yet.
This information will be available on Monday 21 June 2027

Academic Integrity Statement

Information for Academic Integrity Statement has not been released yet.
This unit profile has not yet been finalised.
