ENVR11014 *Environmental Monitoring*
Term 2 - 2025

Profile information current as at 22/11/2024 07:20 pm

General Information

Overview

In Environmental Monitoring you will learn the basics of ecosystem science as well as the research and industry skills necessary to carry out surveys and research in natural and impacted ecosystems. Your study will focus on two iconic Australian ecosystems, the Great Barrier Reef and the Brigalow Belt. The field skills you acquire in this unit will enable you to perform both academic research and industry surveys in ecosystems anywhere in the world. You will apply your knowledge of ecosystems, and animal and plant biology to sample collection, vegetation surveys, animal trapping and identification. You will also begin to learn some basic project management skills including how to legally document your work and to prepare and plan for safe field work. The residential school in this unit will involve animal trapping and will abide by the approved ethics proposal that includes the destructive sampling of some fish and, if caught, the euthanisation of pest species (e.g. cats) as required by law. Students are advised to contact the unit coordinator if they have any concerns with regard to this aspect of the unit. There is an additional cost for the off-campus component of the residential school in this unit.

Details

Career Level: *Undergraduate*
Unit Level: *Level 1*
Credit Points: *6*
Student Contribution Band: *8*
Fraction of Full-Time Student Load: *0.125*

Pre-requisites or Co-requisites

There are no requisites for this unit.
Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure (Higher Education Coursework)](#).

Offerings For Term 2 - 2025

- Mixed Mode
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

> ## Information for Class and Assessment Overview has not been released yet.
> This information will be available on Monday 19 May 2025

- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses
Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student

Feedback
Quiz timing and length.

Recommendation
More time will be added to complete quizzes with more questions.

Feedback from Student

Feedback
Some of the recorded lectures have bad audio quality.

Recommendation
Lectures with poor audio quality will be replaced with new lectures with good audio quality.

Unit Learning Outcomes

> ## Information for Unit Learning Outcomes has not been released yet.
> This information will be available on Monday 19 May 2025

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.
This information will be available on Monday 19 May 2025

Textbooks and Resources
