ESSC12010 *Functional Anatomy*

Term 2 - 2027

Profile information current as at 04/09/2026 05:52 pm

All details in this unit profile for ESSC12010 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

The development of foundation knowledge and competencies in functional anatomy complements anatomy and physiology units and provides the cornerstone to manual assessment of musculoskeletal conditions. This unit will provide you with the knowledge necessary to identify and describe the structural and functional requirements of the musculoskeletal system in relation to human motion for a variety of activities. The unit will develop your understanding of the anatomy of the limbs and the functional principles underpinning movement and posture, including an understanding of the performance aspects of muscle, joints, and the mechanics of movement. You will develop skills in manual location and assessment of musculoskeletal structures as they apply to rehabilitation, exercise conditioning, and general movement.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Student Evaluation

Feedback

Students have expressed that the time limit on Assessment #1 - Online Quiz makes them feel rushed given they are required to complete short answer questions.

Recommendation

It is recommended that the Unit Coordinator review the time allowance for Assessment #1 - Online Quiz to ensure that a fair time allowance is provided.

Feedback from Self-reflection

Feedback

During the residential school students were more engaged and saw greater relevance in the theoretical material when tasked with activities that allowed them to explore solutions in their own time within the weight room facilities on each campus.

Recommendation

It is recommended that the Unit Coordinator review the residential school workbook activities and schedule to include more content and allocated time for the students to apply their knowledge via self-directed learning in contexts relevant to their potential future roles.
