General Information

Overview

In this unit you will focus on evidence-based clinical exercise physiology research and practice that will comprise of a combination of online learning, compulsory on-campus activities and independent research. You will evaluate and apply the principles of evidence-based research to clinical practice by evaluating published literature/clinical frameworks for designing therapeutic treatment plans for those with, or at risk of chronic disease and plan treatments including the use of behaviour change techniques. You will also develop your knowledge and skills in clinical exercise physiology practice through on-campus activities at a residential school.
