General Information

Overview

In this unit, you will have the opportunity to explore, evaluate and apply nursing theories and models that are currently used in the care of older people in different care settings – acute, community, and residential aged care. You will investigate societal perceptions of older people, ageing and the impact these perceptions may have on the older person. You will plan changes to enhance the organisational culture of your clinical setting to provide an environment that is conducive to meeting the clinical, social and psychological needs of the older person and their families.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.
