Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student survey, in-class feedback, email feedback.

Feedback

Students have requested more clarity between A2 and A3.

Recommendation

A2 scaffolds onto A3. However, there is overlap, as this was the perspective of many students (discussed in class and through email contact). Recommending to have more variation between A2 and A3, as students were concerned that the group work would be used for the individualise report and this would impact quality of submission.

Feedback from Student survey.

Feedback

Student has requested individualised feedback for Group Presentation.

Recommendation

Marking group presentations are done in real time during class, to give individualised feedback more time needs to be allocated to marking in class and students would need to wait for each individual student's marks and comments to be uploaded between presentations. Recommending more time is given to marker to give individualised feedback.

Feedback from Unit Coordinator

Feedback

Add gamification to enhance learning experience.

Recommendation

To enhance the learning experience for students, gamification would allow a more connected learning process for the cohort (who have grown up online and comfortable with gaming as a tool). Recommend using Kahoots or similar to develop deeper learning platform that is engaged.
