Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Feedback

Feedback

Students were largely happy with the delivery of the unit. Students requested more assistance during workshops and for the completion of the assessment tasks. Students required more assistance in understanding the concepts and gaining clarity in the basic concepts.

Recommendation

These suggestions were incorporated. The delivery of the on campus and online workshops was modified to suit the students' needs. The workshops covered the topics assigned for that week's teaching and the allotted week's tutorial questions. Frequent and more routine advice and guidance was provided for the assessment tasks during these workshops. Better coordination with sessional staff and uniformity of advice to them on how to deliver the workshops and coverage of topics has greatly helped improve student performance and consequently student experience and satisfaction with this unit.
