MATH11246 *Essentials of Applied Mathematics*

Term 2 - 2025

Profile information current as at 05/09/2024 01:25 pm

All details in this unit profile for MATH11246 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will apply essential mathematical concepts, processes and techniques to develop mathematical descriptions and models for problems in science, engineering, business, and other disciplines. You will learn and apply the properties of linear, quadratic, exponential, and logarithmic rules in appropriate settings and use trigonometric rules to solve relevant problems. You will also practice effective communication of results, concepts, and ideas using mathematics as a language in a way that demonstrates a clear, logical, and precise approach.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit Feedback

Feedback

Some students appear to be facing challenges in managing the content covered within the unit.

Recommendation

Reduce the unit topics covered by removing inequalities and sequences and series topics.

Feedback from Unit coordinator reflection

Feedback

Enhance lecture resources through topic-specific recordings.

Recommendation

Split the weekly video lectures into individual segmented topics.
