General Information

Overview

Foundation Mathematics is designed to provide you with foundation concepts, rules and methods of elementary mathematics. The main aim of this unit is to provide the foundations of mathematics, which are necessary to develop a unified body of knowledge. You will apply number and algebra concepts to solve problems. You will select appropriate mathematical methods to investigate and solve problems, and interpret the results. Mathematics will be used as a language to communicate results, concepts and ideas in context. You will document solutions to problems in a way that demonstrates a clear, logical and precise approach.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit coordinators observation

Feedback

A portion of students appear to be facing challenges in managing the content covered within the unit.

Recommendation

Reduce the unit topics to focus on fundamental numeracy, algebra and functions only.

Feedback from Student Unit Feedback

Feedback

Some students have provided feedback that developing solutions for the workbooks is quite time consuming.

Recommendation

Reduce the number of workbook problems that students develop solution for.
