MATH11248 Algebra 1

Term 2 - 2025

Profile information current as at 23/05/2025 04:56 am

All details in this unit profile for MATH11248 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will study the application of concepts and operational rules of numeric representations and elementary mathematical functions to solve problems. You will utilise algebraic techniques to simplify and manipulate expressions, including algebraic fractions, by combining like terms and factoring. You will determine solutions to problems involving algebraic equation-solving techniques. You will also analyse and synthesise foundation mathematics techniques, principles and concepts into a cohesive, valid and logically communicated solution using correct terminology and notation, and mathematical language.

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2025

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply concepts and operational rules of numeric representations and elementary mathematical functions to solve problems
2. Utilise algebraic techniques to simplify and manipulate expressions, including algebraic fractions, by combining like terms and factoring
3. Determine solutions to problems involving algebraic equation-solving techniques
4. Analyse and synthesise foundation mathematics techniques, principles and concepts into a cohesive, valid and logically communicated solution using correct terminology and notation, and mathematical language.
