MATH12223 *Calculus A*

Term 1 - 2027

Profile information current as at 09/09/2026 05:06 am

All details in this unit profile for MATH12223 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will study common functions and single-variable differential calculus. Through a visual, verbal, numerical and algebraic approach, you will formulate and apply functions and graphs in modelling applied mathematics problems. You will also develop a conceptual understanding of calculus and apply differentiation to solve problems in science, engineering and other disciplines. Other important elements of this unit are the communication of results, concepts and ideas using mathematics as a language.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit Feedback

Feedback

Students were pleased with the organisation of the unit.

Recommendation

Continue with the current learning and teaching practices.

Feedback from Student Unit Feedback

Feedback

Most students found the mathematics study to be both challenging and enjoyable.

Recommendation

Continue to provide a positive and supportive learning experience.

Feedback from Unit Coordinator's Reflections

Feedback

Insufficient stronger links between unit content and its relevance to real-world contexts and career opportunities.

Recommendation

Consider using real-world use cases to highlight the applied aspect of the unit content.
