General Information

Overview

This unit creates the foundations for an understanding of physics as it applies to our world around us, our bodies and our clinical environments. You will learn how to explain observed phenomena, predict changing behaviour and communicate using science conventions. You will apply problem-solving skills and knowledge of physics to find reasonable solutions to both word- and numerical-based situations.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit coordinator reflection Informal student feedback

Feedback

The availability of two online tutorials each week was well received by students.

Recommendation

Consider maintaining the provision of two online tutorial sessions per week to accommodate diverse student work-life balances.

Feedback from Unit coordinator reflection Feedback from teaching team

Feedback

Moving the Online tests from Weeks 5 and 10 to Weeks 4 and 8 respectively has allowed for more timely feedback to be provided to the students.

Recommendation

Invest in the option to continue with timetabling of the two online tests in Weeks 4 and 8 in future deliveries.

Feedback from Unit Coordinator reflection Feedback from teaching team

Feedback

The cost of the prescribed textbook has increased significantly in recent years, adding to financial strain on students.

Recommendation

Explore more affordable alternatives for the prescribed textbook to help reduce financial strain on students while still providing them with the necessary resources for their studies.

Feedback from Unit Coordinator reflection Feedback from teaching team

Feedback

Scheduling tutorials during the same week as the related content instead of retrospective coverage the following week allowed for immediate application and reinforcement of the material.

Recommendation

Consider scheduling tutorials in the same week as the related course content in future iterations.
