MEDI14006 Medical Imaging Clinical Placement 4

Term 3 - 2025

Profile information current as at 24/11/2024 01:08 pm

All details in this unit profile for MEDI14006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

During this clinical placement unit you will complete eleven weeks of full-time work integrated learning experience in a medical imaging clinical facility. You will provide patient care that supports the cultural, physical and psychosocial safety of your patients. You will further develop your skills in general radiography to perform competently in routine situations and to approach the level of competency for complex patients and in complex environments. You will perform routine computed tomography procedures competently and assist in complex procedures. You will attain competency in fluoroscopy in a range of environments. You will further develop your clinical reasoning and decision-making skills as you take on more independence in performance, operating within your scope of practice. You will perform in accordance with the code of conduct for regulated health professionals in Australia. You will further develop your clinical foundation knowledge of techniques, patient care requirements and safety considerations of magnetic resonance imaging (MRI).
