MEDS13008 *Vascular Sonography*

Term 3 - 2024

Profile information current as at 29/07/2024 03:17 pm

All details in this unit profile for MEDS13008 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will introduce you to vascular ultrasound. In this unit you will explore the sonographic assessment of normal and pathological vascular cases. You will apply knowledge of vascular anatomy and physiology, and the physical properties of Doppler ultrasound to clinical scenarios and case studies to critically reflect on sonographic problems. Engaging in this sonographic decision-making process will culminate in the creation of sonographer's interpretive reports, including a provisional diagnosis.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from UC reflection, student feedback

Feedback

Despite changes to the written assessment designed to reduce marking turn-around time (reduction in the number of questions, video explaining the marking rubric, MyStudyWorks feedback and feedforward opportunity), there were still significant delays in the return time for the written assessment.

Recommendation

This assessment strategy will be reviewed and amended where deemed necessary.

Feedback from Student feedback

Feedback

Some students stated that they were not aware that this unit is designed to be taken just before attempting MEDS13011 Sonographic Skills Development 2, and were unaware that not having the knowledge from earlier units could affect their success in the unit.

Recommendation

Students who have not successfully passed MEDS12004 will be advised in writing that attempting this unit without the scaffolded knowledge from prior units may affect their success in this unit.

Feedback from Student feedback, UC reflection

Feedback

Students continued to love attending and participating in interactive tutorials.

Recommendation

Interactive tutorials will be continued in future deliveries of this unit.
