General Information

Overview

Medical Science Research 1 will provide you with training in research. You are required to independently undertake an investigation of a research question in an area of medical science. This research question will be fully investigated and reported in written scholarly form in Medical Science Research 2. The research question will be of significance to an area of medical science related to your course of enrolment and will be undertaken under the principal supervision of a member of that course's staff.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE

Feedback

There was limited input from the unit coordinator during the term.

Recommendation

Increased clarity will be provided to students relating to the completion of this unit, particularly the role of the research mentors in guiding student completion of the unit rather than the focus of teaching being the Unit Coordinator as is typical for content-based units.

Feedback from Informal feedback and personal reflection

Feedback

Clarity around assessment tasks could be improved by providing rubrics to guide students.

Recommendation

Rubrics will be developed for future offerings.
