General Information

Overview

In this graduate clinical unit, you will build on knowledge and attitudes using best available evidence developed during your studies to competently perform diagnostic scans in areas appropriate for attainment of graduate competency to the 'Level of Competent Sonographer', as defined by the Professional Competency Framework for Sonographers adopted by the Australasian Sonographers Association and the Australian Sonographer Accreditation Register. You will evaluate findings to formulate a differential diagnosis and initiate further investigation when appropriate. You will demonstrate reflective practice to expand your core knowledge and experience. You will also behave professionally using interpersonal skills relevant to sonographic practice in accordance with CQUiversity postgraduate attributes and Australian Sonographer Accreditation Registry accreditation requirements.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator Reflection

Feedback

The presentations for Assessment 4 took too much time during the Zoom tutorials. There was not enough time to go through revision and learning materials with students.

Recommendation

Update the requirements for Assessment 4 so that Zoom tutorials are run more efficiently where there is enough time to go through the presentations and revision and learning materials for students.

Feedback from In Class

Feedback

The peer engagement component for Assessment 4 was unnecessarily onerous on the unit coordinator and the students. Students had to ask a question for 10 different presentations.

Recommendation

Revise the peer engagement component for Assessment 4, requiring students to only ask a question for 3 different presentations rather than 10.
