General Information

Overview

This unit introduces you to the principal theories in musculoskeletal sonography with opportunities for lab activities designed to enhance your learning. In this unit you will apply your knowledge of detailed relational anatomy and pathophysiology, and correlate this with new knowledge on sonographic appearance, scanning orientation and scanning skills relevant to the musculoskeletal system. You will demonstrate understanding of the clinical indication of musculoskeletal ultrasound, applying clinical reasoning in planning for the scanning protocol for each individual patient and implementing patient care and safety in performing musculoskeletal sonography. You will interpret static and dynamic musculoskeletal sonographic imaging and create a provisional diagnostic report as well as explaining differential diagnosis and alternative diagnostic studies based on the clinical information.
