General Information

Overview

This unit focuses on the production of goods and services in a multitude of operations that provide for the needs of people in our increasingly globalised economy. In this unit, you will gain insights on how output is achieved smoothly, efficiently, and profitably to meet the needs of organisational customers and clients. This unit will enable you to gain knowledge and skills to recognise the need for improvements within an organisation's business model and value chain. For example, you will examine productivity management, quality control, facilities management, and project management. The unit will enable you to design and develop production and operating systems while also applying a number of generic problem-solving techniques. This unit allows you to focus on an organisation, industry, or sector of your choice from a selected list of options for all assessments.
