MGMT19126 *Operations Management*

Term 1 - 2027

Profile information current as at 15/09/2026 10:37 pm

All details in this unit profile for MGMT19126 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit focuses on the production of goods and services in a multitude of operations that provide for the needs of people in our increasingly globalised economy. In this unit, you will gain insights on how output is achieved smoothly, efficiently, and profitably to meet the needs of organisational customers and clients. This unit will enable you to gain knowledge and skills to recognise the need for improvements within an organisation's business model and value chain. For example, you will examine productivity management, quality control, facilities management, and project management. The unit will enable you to design and develop production and operating systems while also applying a number of generic problem-solving techniques. This unit allows you to focus on an organisation, industry, or sector of your choice from a selected list of options for all assessments.

Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Completion of 48 credit points in the first year of equivalent full-time study.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2027

- Brisbane
- Melbourne
- Online
- Sydney

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.
This information will be available on Monday 11 January 2027

- Student Refund and Credit Balance Policy and Procedure
- Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Business reports from McKinsey & Co. and others state that AI will quickly become embedded in contemporary business operations and processes.

Feedback

Students studying operations management must be comfortable using AI and able to assess how digital AI technologies can possibly enhance business operations.

Recommendation

The recommendation is to continue introducing students to AI for operations management. However, it must be clear that students must use AI responsibly. Students' AI use must be guided by students' competent critical thinking, self-reflection, and ethical considerations, while ensuring academic integrity. It is recommended to continue to inform students about current AI developments and their impact on business operations.

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.
This information will be available on Monday 11 January 2027

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.
