General Information

Overview

Researching strategically relevant business problems is an important part of professional practice and being a successful manager and leader. This is a capstone unit that draws upon your area of specialisation and your wider knowledge of business environments both globally and locally. The unit focuses on developing your ability to undertake independent research that focuses on and contributes to strategic decision making and sustainability in organisations. The unit will improve your skills in synthesising information and developing solutions to improve the long-term effectiveness and sustainability of organisations. You will use research skills to analyse a management problem in your chosen business discipline, identifying strategic challenges, and developing recommendations aligned with the United Nations Sustainable Development Goals (SDGs). These recommendations will be based on systematic and rigorous analysis of relevant academic literature, professional business information, and publicly available secondary data.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit coordinator reflection

Feedback

Continue to monitor T3 enrolments

Recommendation

Determine if there is a way to boost engagement in the distance mode offering of the unit to prevent students disengaging and impacting their ability to complete a high quality research project.

Feedback from Unit coordinator reflection

Feedback

As new measures of impact start to become available, begin the process of incorporating alternatives to the SDGs

Recommendation

Continue monitoring media releases regarding the future beyond the SDGs, particularly from the UN in relation to future goals they may set.
