MMST11003 *Visual Design Fundamentals*

Term 2 - 2024

Profile information current as at 19/05/2024 07:14 am

All details in this unit profile for MMST11003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will introduce you to fundamental principles and elements of visual design and how these can be applied in digital environments. You will develop an understanding of design as a visual language, become immersed in design thinking, and become proficient in visual communication for digital production. As you develop skills with industry-standard software tools such as Adobe Illustrator and Adobe Photoshop, you will work individually and collaboratively to create innovative solutions to design problems.

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Informal discussions with Digital Media team colleagues

Feedback

Course content should include more discussion of intellectual property and ethical issues around generative AI and design.

Recommendation

Update and expand content relating to intellectual property and ethical issues around generative AI and design.

Feedback from Informal discussions with Digital Media team colleagues

Feedback

Adobe Illustrator now incorporates a standardized way of working with generative AI. This method should be covered in the Unit teaching materials and the use of generative AI should be incorporated into one of the assessable exercises.

Recommendation

Use of Adobe Illustrator's AI tools will be taught. One of the assessable exercises will be modified to require students work with generative AI in Illustrator.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. apply fundamental principles and elements of visual design in digital environments
2. communicate effectively with others in the process of design and presentation
3. develop innovative visual design solutions which combine form and function
4. create visual designs using digital technologies and industry-standard software tools
