General Information

Overview

The Nursing and Midwifery Board of Australia's (NMBA) Registered Nurse Standards for Practice (2016) require a registered nurse to think critically and analyse nursing practice. This is achieved by accessing, appraising and applying the best available evidence to inform safe and quality practice. In this unit, you will develop the foundational skills required for applying best evidence to navigate information gathering, its application to quality practice and assessment writing, early in your nursing education.
