The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

This unit will provide you with the theoretical and practical knowledge required to critically analyse and interpret evidence-based practice in nursing research. You will identify an area of interest from your professional practice setting and develop a research question. Using this research question, you will develop a search strategy followed by the retrieval, critical examination, evaluation, synthesis and cataloguing of the selected literature to develop a literature. The research question and literature review developed in this unit will facilitate the development of a quality improvement research project which will be undertaken in future units including NURS20168, NURS20173, and NURS20174.
