The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will provide you with the theoretical and practical knowledge required to critically analyse and interpret evidence-based practice in nursing research. You will identify an area of interest from your professional practice setting and develop a research question. Using this research question, you will develop a search strategy followed by the retrieval, critical examination, evaluation, synthesis and cataloguing of the selected literature to develop a literature. The research question and literature review developed in this unit will facilitate the development of a quality improvement research project which will be undertaken in future units including NURS20168, NURS20173, and NURS20174.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE Teacher Evaluations

Feedback

Best teacher ever. Very, very supportive and motivated

Recommendation

Continue to demonstrate a positive attitude and supportive approach to my teaching.

Feedback from SUTE Teacher Evaluations

Feedback

Thank you so much for the support and encouragement

Recommendation

Continue to demonstrate a student focus approach that includes encouraging students.

Feedback from SUTE Course Comments

Feedback

Course coordinators were very supportive with the course

Recommendation

Continue to demonstrate a student-focused approach that includes including the Head of Course (HOC) to 'drop in' to listen to student presentations when available. This approach demonstrates to students a collegial approach with the unit coordinator and HOC but also shows the HOCs invested interest in their research and progression of their degree.
